Normal Operations	Normal Operations	Normal Operations	Normal Operations

### Cal OES INLAND REGION

#### Stanislaus River Erosion Incident, San Joaquin County

On 12/13/19 at 1503 hours, the California State Warning Center was notified by the Department of Water Resources Flood Operations Center (FOC) of significant erosion occurring on a bank on the Stanislaus River.

- No flooding is occurring and there is no emergency at this time.
- The site is on the right bank of the Stanislaus River at approximately Levee Mile 2.4.
- Reclamation District (RD) Engineers believe the damage was caused by a falling tree. The tree caused the water to swirl causing the erosion. They are concerned about other trees falling into the river and causing more issues.
- As of 12/21/19, the tree was moved closer to the bank to reduce the chance of future erosion. RD 2064 is evaluating removal of the tree at a later date.
- As of 12/21/19, the contractor has finished placing rock over the eroded bank, levee toe and waterside slope.
- The contractor will return on 12/27/19 to complete the levee road rehabilitation and seeding.
- Demobilization is now expected to be 12/27/19.

#### **Activations**

- Flood Operations Center (FOC) is activated at their lowest level.
  - Operational Period:
    - Duty Officer status on Wednesday, 12/25/19.
    - 0800 hours to 1700 hours during the week and Duty Officer status overnight and over the weekend.

#### **Proclamations**

- RD 2064 proclaimed a local emergency on 12/12/19.
- The San Joaquin County Director of Emergency Services proclaimed a local emergency on 12/13/19 in support of RD 2064.
  - San Joaquin County Board of Supervisors ratified the Proclamation on 12/17/19.

### Cal OES COASTAL REGION

- Nothing significant to report.

### Cal OES SOUTHERN REGION

- Nothing significant to report.

## FIRE ACTIVITY

### Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 1	Preparedness Level 1	Preparedness Level 1
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

#### Cal OES Fire Missions

##### **2019-FIRE-402**

- Five (5) 20-person Hand Crew each and all necessary personnel, support, transportation and materials
- 65 additional soldiers to be trained and ready to backfill
- Assigned to fuel reduction efforts in SHU, NEU, BEU, and FKU (1 Crew in each unit with the exception of 2 crews in FKU)

## Service Interruptions

- None reported

# WEATHER OF CONCERN

## NORTHERN CALIFORNIA

- Hazardous Weather Outlook has been issued for northwest California.
  - Light snow accumulations will be possible tonight and Wednesday morning across interior mountain passes.
- Scattered light showers with amounts less than 0.25 for Valley areas on Christmas.
- Snow levels will be quite low with this system down to 2,500 feet, but the low moisture amounts will only give 1-3 inches over the Sierra. Slightly more over the Coastal Range and Southern Cascade where 2 to 4 inches may fall.
- Dry weather returns Thursday through Saturday with normal temperatures.

## SOUTHERN CALIFORNIA

- Winter Storm Warning remains in effect from 1000 hours Wednesday to 1600 hours Thursday for the Tehachapi area.
  - Total snow accumulations of 6 to 12 inches, with isolated amounts around 18 inches conceivable above 3,500 feet.
  - Winds gusting as high as 35 mph.
  - Travel could be very difficult to impossible.
  - The hazardous conditions could impact the morning or evening commute.

### **Active Weather Warnings, Watches and Advisories by County:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# **WEATHER KEY POINTS**

**12/24/19 - 12/30/19**

## **Tuesday**

- Unsettled conditions continue statewide with chances for valley rain and mountain snowfall
  - Minor travel impacts over the mountains due to snow

## **Wednesday-Thursday**

- Another round of locally heavy rain and isolated thunderstorms along with mountain snow Wednesday night into Thursday morning over the Southern Region
  - Urban flooding and rock slides are possible but no significant debris flows expected on recent burn scars
  - Heavy snow over the mountains will impact travel. Total snow accumulations of 4-8 inches above 3500 feet and 1-2 feet above 5000 feet are possible.

## **Friday-Saturday**

- Dry conditions and warmer temperatures across the state with no significant impacts

## **Sunday**

- Light rain across the northern coastal areas along with snow over the far northern mountains with minor travel impacts
- Otherwise, dry conditions across the rest of the state with no significant impacts

## **Monday**

- Dry conditions across the state with no significant impacts
